Abstract

Inquiry-based learning is a fundamental principle in IB education. This sharing aims to explore how to foster students' inquiry skills and critical thinking abilities, as well as how to utilize inquiry-based learning to enhance understanding, mastery, and application of unfamiliar literary genres. These two aspects are interdependent and mutually reinforcing. During this session, Ms. Junyu Jiang will share a lesson example from a third-grade mother tongue class in primary school, where students are introduced to fables, a completely new literary genre. She will show and discuss the complete teaching process, including instructional design, implementation, and feedback, while also delving into the design of related units and the teaching of the whole book.

Guest Speaker

Ms Junyu Jiang (蔣君瑜) currently serves as the Director of Chinese in the Primary school at Keystone Academy in Beijing. She holds a Master's degree in Education from the University of Hong Kong and is one of our most outstanding alumni. She has been recognized as an excellent teacher in Beijing and has extensive experience in leadership roles in international schools. As a subject leader, she successfully integrates national curriculum standards with international education standards to design a school-based curriculum. She also improved the school's assessment system and ensured optimal alignment of the curriculum across primary and secondary divisions. Leading the team, she developed various interdisciplinary courses and activities. Her focus is on nurturing students' thinking skills and fostering effective learning habits, which has earned widespread acclaim.
