FOSTERING DEEPER THINKING IN THE CHINESE CLASSROOM

在中文課堂中培養學生的深度思考能力

HKU IB Chinese Language Teaching Professional Forum is to provide a platform for IB Chinese language teachers to share practices and learn from each other. We welcome all HKU students, alumni, and frontline teachers to join us!

Time: 10:00-11:30 am, 18 May 2024

Medium: Mandarin

Format: Online Forum via Zoom

Registration: Please click on the [link](#) or use QR code to sign up
You will receive a confirmation email with the access details.

Fee: Free of charge

Abstract

In an era where information is readily accessible, let us reconsider the role of teachers. For students to thrive in the ever-evolving world, it is crucial for teachers to foster deeper thinking in the classroom. This involves enabling students to actively build knowledge, think critically, and apply what they've learned to real-life situations. This workshop will delve into strategies for designing such enriching learning experiences and empowering students as active contributors in class. Through sharing concrete examples from diverse MYP and DP Chinese classes, it aims to inspire teachers to establish transformative learning environments where students become active participants, critical thinkers, and reflective lifelong learners.

Guest Speaker

Ms. Danni Li (李丹妮) graduated from the University of Hong Kong with a Master of Literary and Cultural Studies. She currently serves as Head of Chinese (Secondary) at Renaissance College in Hong Kong. She is an IB Workshop Leader, ACAMIS Chinese Conference Planning Committee member, and a certified trainer for Concept-based Curriculum and Instruction. She has been invited to host workshops and present at conferences in both Hong Kong and internationally. Her publications include research papers, opinion essays, an online course to integrate AI into Chinese education, and a textbook featuring Learning Chinese as a First Language. In 2021-2022, she led a project to transform the Learning Chinese as a Second Language curriculum by adopting the Teaching for Understanding framework with funding from the Hong Kong Quality Education Fund.
